Who We Are

Laguna Woods Community Bridge Builders initially came together to respond to several hate incidents that occurred in and around our community in 2022. However, we found that we can better achieve our mission by enabling members to recognize others' strengths and to celebrate our common humanity.

Our members represent many ethnicities, races, religions, national origins, sexual orientations, abilities, and socio-economic backgrounds. We value listening to and learning from each other. We hope that bringing people together will encourage them to develop closer relationships that transcend social boundaries.

What We Do

CBB organizes intercultural programs and education centered on music, dance, traditional foods and clothing, life stories, poetry, theater, expert speakers, and fieldtrips. Our "One Song" and "World through Dance" events involve collaboration with other village clubs.

We also wrote, acted in, and produced a video and training materials on "Ageism: Making the Invisible, Visible."

Through these activities, we aim to help each other gain insight into what it is like to "walk in another's shoes."

This is only the beginning! We look to our members to shape future directions.
